# Preface

It is a great privilege for us to present the proceedings of the 12th International Conference on Information Management and Engineering (ICIME 2020) and the 3rd International Conference on Information Hiding and Image Processing (IHIP 2020) which were held jointly on September 16-18, 2020. Given the coronavirus pandemic, these conferences were rescheduled as virtual events using the Zoom platform.

A major goal and feature of the conference was to bring academic scientists, engineers, and industry researchers together to exchange and share their experiences and research results about most aspects of Information Management and Engineering, Information Hiding and Image Processing, and discuss the practical challenges encountered and the solutions adopted.

The proceedings of 12th ICIME 2020 includes papers submitted to the conference from universities, research institutes and industry.

The program consisted of invited sessions, and authors' parallel sessions covering a wide range of topics in Image Analysis and Watermarking Technology, Intelligent Image Recognition Technology and Application, Digital Image Processing and Application, Computer Science and Information Engineering. This rich program provides all attendees with opportunities to interact online.

On behalf of the conference chairs, we would like to express our sincere thanks to the committee members for their long-term support and contributions. We are grateful to the reviewers, who have been very helpful in efficiently reviewing the manuscripts and for their constructive comments to the authors. At the same time, we also extend our thanks to the authors for their contributions and participation in the online sessions.

We are pleased to know that all conference participants found the discussions fruitful, and enjoyed the opportunity to pursue future collaborations. We look forward to seeing all of you next year at the conference.
